

# TITAN

*Named in honour of the Titan gods, the Titan 575 is indeed a creature of great strength and versatility.*

## Titan 575 Glass Robot

**As the most advanced glass lift on the market, it brings superior levels of accuracy, simplicity and safety to any worksite.**

Featuring smooth handling and accurate controls, the Titan 575 increases productivity and reduces the likelihood of damage making pocket glazing and glass placement simple and safe.

Its unique ability to transport glass from truck to jobsite is un-rivalled; the rough terrain upgrade kit is fitted standard, enabling the Titan 575 for use on both external and internal sites. Being so compact, the machine is easy to transport and operate in restrictive areas.

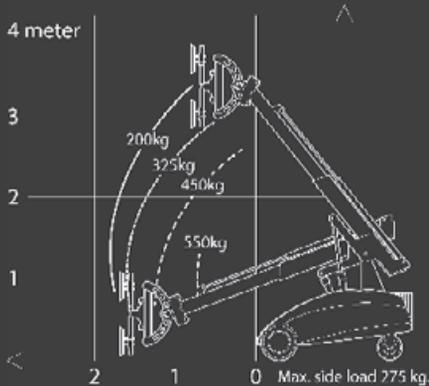

The intelligence of the Titan 575 is reminiscent of the renowned intellect of the great Titan gods. Hydraulic rotation, side shift and telescoping combine with three other hydraulic functions, auto levelling gyroscope, and manual ability to tilt the head 90 degrees to carry glass on the side of the unit when space is restricted.

Ideal for:

- Pocket Glazing
- Shop Fit outs
- Factory Use
- Final placement of glass and windows
- Transport from truck to placement

External Length	1,880 mm
External Width	890 mm
Max. Lifting Capacity	575 kg
Max. Load at Max. Extension	275 kg
Maximum Capacity on Side	275 kg
Total Weight excl. Counterweights	1,025 kg
Total Weight incl. Counterweights	1,300 kg
Min. Extension [front bumper to suction cup]	700 kg
Max. Extension [front bumper to suction cup]	1,800 mm
Max. Lifting Height [to center of lifting yoke]	3,600 mm
Hydraulic Side Offset	100 mm
Fine Lift on Arm	200 mm
Tilt Function	180°
Hydraulic Rotation	180°
Suction Cups	4 X Ø350 mm
Batteries	2 X 150 Ah

Titan 575 **max. load kg.**

Titan 575 **max. load/reach kg.**
