

EQUIPMENT INFORMATION SHEET

Ute Boom

Important, read this before operation!

Below is a list of features of this equipment that you should be aware of before operating, and check before calling us for support.

- This vehicle takes diesel fuel.
- Keys for the boom controls will be located in the center console of the vehicle.
- Make sure this ute is parked facing up a hill when you are planning to use the boom.
- Full operational instructions are in the glovebox as well as on the QR code attached to this form

Safety

PPE: - Harnesses must be worn when operating the boom, they are located in the vehicle behind the passenger seat.

SPECIAL: Yellow EWP card is required for operating this machine.

CONDUCT A RISK ASSESSMENT:

Before you commence any work at your chosen work area, you should undertake some preliminary hazard identification and risk control precautions. Ideally more than one person should do this. This is undertaken by:

- Physically inspecting the work site
- Reviewing the best way/job steps required to complete the task
- Reviewing the Safe Work Information supplied with the equipment
- Reviewing other reference documentation and expert advice.

The hazard identification and control process steps are defined as:

- Identify the Hazards (eg. 240V power drill use around wet areas)
- Assess the Risk (multi earth paths - possible electrocution)
- Select the Control Measure (e.g. dry the area; use an RCD; use a cordless drill etc)
- Re-assess the Risk (risk of electrocution now negligible). This is undertaken to ensure that the risk control measures adopted have not introduced any new risks to the work area.

BEFORE OPERATING THE EQUIPMENT:

- Read this Safety Sheet and any other information provided with the equipment, including instructions, decals and operation guidelines.
- Check that you understand how and when to use the equipment, and know how to operate it safely.
- Ensure that it is only used according to the manufacturers and hirer's instructions, and only for work that is compatible with its technical limitations.
- Operate in a clear work area free from nonessential persons, children, animals or hazards.

Operator Manuals
